CERTIFICATIONS

Internal Auditor of Information Security Management System (ISO/IEC 27001:2013) – Intertek, 2018

PROFESSIONAL EXPERIENCE

- **Functional Consultant | PT ICT Health Indonesia | Jan 2024 – Present**
 - Handle the Hospital Information System (HIS) for the Hermina Group, which has more than 40 active hospital branches across Indonesia.
 - Maintain the integration of the Hospital Information System (HIS) with national healthcare platforms and government systems, including BPJS VClaim and EClaim, Satu Sehat, and SITB, ensuring smooth operation and compliance with regulations.
 - Collaborate with Privy to implement eSignature solutions aligned with BPJS claim requirements, improving claim processing accuracy and efficiency.
 - Handle requirement documentation for an AI-based clinical summary project using doctor–patient conversation recordings.

- Lead the end-to-end development and rollout of the new BPJS EClaim iDRG V5.10, which is a major upgrade from the previous version including requirement gathering, stakeholder interviews, coordination with developers, testing, and release planning across multiple hospitals.
 - Manage the Jira ticketing system for issue tracking, sprint planning, automation, and backlog organization to support smooth development progress, while also maintaining developer worklogs as data for HR payroll, KPI evaluation, and internal analysis of time spent versus estimates.
 - Conduct client workshops and translate business requirements into clear technical documentation, collaborating closely with developers and QA to ensure high-quality outcomes.
 - Coordinate release management activities, including backlog prioritization, progress tracking, and release planning, to ensure smooth and timely deployment across all active hospital sites.
- **Product Manager | Luce Maintenance Group | Sep 2022 – Dec 2023**
 - Directed a Feature Team in designing and launching new digital services aligned with company strategy.
 - Authored Product Requirement Documents (PRD) and value propositions, ensuring clarity for stakeholders.
 - Collaborated with cross-departmental teams to break down complex problems into actionable solutions, using company tech stack: Rails, React, Postgres, React Native, Sentry.
 - **Associate Product Manager | Luce Maintenance Group | Sep 2021 – Aug 2022**
 - Supported Product Manager in building an integrated platform to streamline Sales, Customer Support, and Billing using Twilio & HubSpot.
 - Managed bug tracking and resolution with ZenHub and GitHub; assisted in planning and executing product launches.
 - **Web Developer (Part-Time) | Cardinal Digital | May 2020 – Aug 2022**
 - Built marketing & e-commerce websites using Webflow and implemented analytics tracking via GTM.
